OURAY'S ORDER OBEYED.

LATEST FROM THE SITUATION IN THE INDIAN COUNTRY.

The Indians Determined to Keep the Whites away from the White River Agency.

RAWLINS, Oct. 12.—It is believed here on the evidence of a man who left the command on Thursday morning that ever since Merritt reached Payne he has been fighting the Indians. The savages seem determined to keep the troops from reaching the agency, and have fortified themselves in a commanding position. They are continually at work strengthening their position, and to dislodge them will require additional force. Colonel Brackett, of the Third cavalry, with a detachment of six companies of cavalry and two of infantry will leave for the front on Monday. The horses to remount the dismounted men of Payne's command will be sent forward to-morrow.

OURAY'S ORDER OBEYED.

WASHINGTON, D. C., October 13.—The following has been received by the Indian Commissioner at the Los Pinos Agency, October 9th: "Employee Brady and the escort of Indians just arrived from White River, report the Utes as having recognized and obeyed Ouray's order. Have withdrawn, and will fight no more, unless forced to do so. If the soldiers have now stopped, the trouble can be stopped, by a peace commission to investigate the offences, let the blame rest where it may. This will save life, expense and distress, if it can be accomplished."

LATER.—A rumor just received from the Southern Ute Agency, with a letter from the agent, states that a general cunncil has been held; that the Utes will obey Ouray's request; and that they will stay at home, and take no part in the White River trouble, and request Ouray to inform them of their decision.

(Signed) STANLEY, Agent.
I concur in the above.
(Signed) OURAY,
Head Chief of Utes.

FROM LOS PINOS.

DENVER, COL., October 13.—Sapavameiro, one of the most reliable subchiefs, sent by Ouray to the White River Agency, returned to the Los Pinos Agency, and reports that he saw white women and children at the White River Agency in charge of Chief Douglass; saw one of the employees who was present when the Indians made an attack on the Agency. This man killed one Indian and wounded another. Sapvameiro thinks three or four more employees are alive. Meeker was killed.

The report given in the papers that Sapavameiro and Shavano took part in the fight, is untrue; and it is also not sure that Chief Douglass led the White River Utes. Ouray thinks Jack—a White River Ute—commanded the Indians in the charge on Thornburgh's command.

Secretary Schurz immediately called on General Sherman with the above dispatch and as the result of the conference General Sherman sent the following instructions to General Sheridan: "The Honorable Secretary of the Interior has this morning called with the dispatch given at length below which is communicated for your information and which should go for what it is worth to Crook and Merritt. The latter on the spot can tell if hostiles have ceased fighting, if so General Merritt should go in any event to the agency to ascertain the actual condition of facts. All the Indians who oppose must be cleared out of the way if they resist. If they surrender their arms and ponies they should be held as prisoners to be disposed of by superior orders. The Secretary of the Interior will send a special agent to Ouray, who is believed to be honest and our friend. He may prevent the Southern Utes from being involved and the Interior Department can befriend him afterward by showing favors to some of his special friends. But the murderers of agents and employees must be punished as also those who fought and killed Major Thornburg and men. Please acknowledge receipt."

W. T. SHERMAN, General.

Fatal Attachment.

NEW YORK, Oct. 13.—Sylvester M. Hickey, business manager for Mary Anderson, was shot in the head at the Burnet House, Cincinnati, yesterday by a girl named Florence McDonaid, of Syracuse, who was passionately in love with him. Accounts represent Hickey as having been intimate with the girl, and becoming enamored with Miss Anderson, had endeavored to break off the intimacy with Miss McDonald. The latter followed him from city to city and besought him to return to her. At last she heard from his lips that he was in love with Miss Anderson and cared nothing for her. She went to the Burnet House yesterday and during an interview with Hickey shot him. She then put the pistol to her own head and fired, killing herself instantly. Hickey will probably recover.

Lynch Law in Texas.

GALVESTON, October 12.—A *News* special from Dallas reports that the cabin of a negro woman named Esther, on Albridge's plantation, was visited yesterday morning by a band of about forty disguised men, who demanded her son Charles. The demand not being complied with, the door of the house was fired into, resulting in the wounding of a girl in the head. A freedman who was inside then fired on the attacking party, wounding one of them. At this juncture the door was forced open, and Esther and her family, with the negroes from a neighboring cabin, were carried away, several other negroes escaping. The closing scene was the murder of Esther and her son Charles, both being riddled with buckshot. Several arrests have been made, and others are to follow.

Drought in Virginia.

PETERSBURG, Va., 12.—The dry spell of weather for the past month has caused the creeks in the adjoining counties to dry up and the mills to cease operations, causing great inconvenience. In some places the wells which have hitherto stood the severest droughts are drying up. The Appomattox river is lower than it has been for years, and the mills along its banks cannot do more than half work.

Fire in Cincinnati.

CINCINNATI, O., October 12.—The Cincinnati marine railway and dry docks just above the city were burned last night The new steamer Bostna, on the stocks, was also destroyed. The loss is estimated at about $150,000.

Further Details of the Collision.

CINCINNATI, Oct. 13.—A Wheeling, West Virginia, dispatch gives the following additional intelligence in regard to the collision of the two passenger trains on the Baltimore & Ohio railroad at Belton, Va., on Saturday night. Both trains were filled with passengers who miraculously escaped injury with the exception of a little girl, who was slightly hurt about the face. Jasper, the fireman of the west bound train, was seriously injured. A boy named Flanagan, aged fifteen years, who was stealing a ride was instantly killed. His parents live at Clarksburg, Va. A negro boy who was stealing his way to Clarksburg between the tender and pilot car was seriously injured. George Shinn, postal clerk on the west bound train was seriously injured and taken to his home in Fairmount, West Virginia, where he now lies in a critical condition. The refrigerating car containing Butler was crushed to pieces. The postal and baggage cars of both trains are also total wrecks. The bodies of engineer Askew and fireman Smith were brought to this city this morning and taken to their homes. Jasper was taken to Grafton.

Afghanistan Sleeping.

LONDON, October 13.—A dispatch to the *Daily News* dated Allahabad, Sunday evening, says that the leading merchants of Cabul have come into General Roberts' camp, and that on the night of the 8th instant a tremendous explosion was heard in Cabul. It is believed that the mutineers had blown up the magazine.

A correspondent of the *Times*, in a dispatch to Cabul, October 9th, says: "Our camp is on a plateau overlooking Bala Hassier and city. General Baker has marched a strong brigade to a camp on the right of the city. Not a single shot was fired. Resistance is broken for the present."

The New York Invasion.

NEW YORK, October 13.—The Gate City Guards, after attending church yesterday, took a ride over the elevated roads and visited the different objects of interest in the city and suburbs, under an escort by the members of the seventh regiment. To-day they will visit Blackwell's Island, and to-night they will attend Niblo's Theater. They expect to leave here for Hartford and Boston on Thursday.

A North Carolina Lawyer Admitted.

He filed in this court a transcirpt of record of of the United States Circuit Court for the Eastern District of North Carolina in the case of Seymour and others *vs.* the North Carolina railroad brought up by writ of error. HALIFAX.

HALIFAX, Oct. 11.—The weather is still dry and warm.

There was a blind concert at the court house last night, and quite a large crowd in attendance for Halifax.

A few nights ago, some one went to Mr. W. R. Purnell's house, a short distance from town, got up to his bed-room window and discharged a double-barreled gun, just above and across his bed, one shot going through his pillow and one through a pair of pants hanging at the foot of his bed, the greater part of the shot going across where he would have been had he remained at home; but fortunately for him he was in town that night. Mr. Purnell says he has no clue to the perpetrator, as he didn't know he had an enemy in the world. He is a bachelor, living alone in the house.

Our civil docket is so large that the people are getting anxious for another extra term, with Judge Gilmer to preside, if we can get him. It is conceded that in the court house he gave general satisfaction—polite, courteous and efficient. It is useless to comment on his ability, for we are all satisfied with that, and only wish there were a few more like him in the State. He is the man we want in the court house; he knows no man. Can we get him?

PITT.

GREENVILLE, Oct. 11.—The weather has been the warmest known at this season of the year. This morning it is cloudy and slightly cooler with the wind northeast. Trade is a little livelier, but consists more in barter than cash.

The Primitive Baptists estimate that there were nine thousand people at their association last Sunday at Spring Green Church in Martin county.

The new steamer "Greenville" will soon be on the line between this place and Washington. She is said to be the largest and swiftest boat ever seen on the Tar river. There is nothing new of which to write. When there is I'll let you hear from me again.

A Glorious Victory---A New Enterprise---The Legislature and the Judiciary---Horrible Death.

A GLORIOUS VICTORY.

Greenville Express.

A man rushed to the boat Tuesday morning with a naked child in his arms. Hearing that the boat would not leave in an hour he hurriedly chucked the child under a lounge in the cabin, hastened up town and came back as drunk as a biled owl. He said that he lived in Beaufort county. That his wife had left him and come back to her home in Pitt county, bringing with her the child. He came up here Monday and tried to persuade her to return with him, which she refused to do. By some means he got the child from where it was sleeping Monday night, and went off with it on the boat, shouting at the top of his voice, "Hurray for us! Hee, hee er whoopee!"

MILL-STONES FROM MOORE.

Charlotte Observer.

J. E. Taylor, president of the Taylor Manufacturing Company, of Westminster, Md., was in the city yesterday. We learn that he has bought the mill-stone quarry in Moore county, about five miles from Carthage, which contains a stone that was discovered some seventy-five years ago, and has been worked by several parties in a primitive way, some ten different quarries having been operated for years. The stone has gained quite a local notoriety as Moore county grit. It is a blue cement-colored rock filled with white flint, and it is claimed for it that it grinds corn in a manner superior to the French burr, or esophus. The grit being so much sharper than that in the ordinary mill-stone makes a fine granulation instead of a pasty or floury meal. It is also claimed that it grinds with much less power than any other. Mr. Taylor purchased the entire vein some five miles long, together with three hundred and fifty acres of land, and has formed a company called the Moore County Mill-stone Company, which will put in all the improved machinery necessary to put the stones on the market in quantities. The deposit is said by all acquainted with it to be inexhaustible.

THE LEGISLATURE AND THE JUDICIARY.

Newbernian.

A correspondent of the Tarboro *Southerner*, in a communication, berates the Supreme Court severely for its late decision relative to the school law; this stirs up the Raleigh *Observer* to a defense of the court. We will not enter into the merits of the question, but will only say there was a great neglect or disregard of duty by some of the officers of the General Assembly of 1879; either the engrossing clerks, the committee of enrollment, or the speakers, are to blame, possibly all of them. The occurrence is both deplorable and censurable, and steps should be taken to prevent the recurrence of a similar outrage. We learn that this is not the only bill which passed the General Assembly, and failed to become a law. The Supreme Court does not make the law, it only expounds it, and the court is not called upon, nor is it any part of its business to cover up the errors and omissions of the Legislature.

HORRIBLE DEATH.

Mt. Airy Visitor.

Euel Smith, a promising young man of Patrick county, Va., met a horrible death a few days ago. While engaged hauling up corn or some other farm product, his team took fright and ran away. He became entangled with the lines and was dragged a considerable distance. When extricated he was found to be horribly mangled, his head having struck a rock, his limbs badly broken, and badly bruised. He survived but a few hours. This sad accident has cast a gloom over the entire community where Mr. Smith lived.

DISTRESSING ACCIDENT.

Lincolnton Progress.

A distressing accident befell the wives and children of Messrs. John Hoover and Henry Warlick. The two ladies had started to make a visit to the family of Mr. Henry Rhodes, and reaching the long hill about one-fourth of a mile this side of Mr. Warlick's the piece on the end of the tongue became detached, letting the hack run on the horses. Each mother had in her arms her babe, and in the hack were also two of Mrs. Hoover's larger children. Taking in the fearful situation at a glance, Mrs. Warlick placed her babe in the arms of Mrs. Hoover and heroically jumped out with the intention of stopping the horses by getting before them, but in jumping she had an ankle dislocated and was rendered powerless. The horses kept on in their mad career, but before they reached the bottom of the hill the vehicle turned over and its occupants were thrown into a gully. Near Mrs. Hoover lay the children scattered for a distance of twenty feet. All were more or less hurt, and sad to relate her darling babe was picked up in a dying condition and lived but a few hours after being taken home.

THE WINE INDUSTRY.

Mt. Airy Visitor.

Why do not grape growers exhibit our native wines at the State Fair?

Answer—The reason is that the legislature of North Carolina has passed laws that interfere with manufacturing and selling wine in our State, and won't allow us to peddle on trees and vines unless we pay a heavy tax, and (by the by) some went so far as to crush out wine and make laws to allow whisky to be sold by some priviledged characters under the old law. Wine manufacturers, who had spent thousands of dollars, were crushed out by laws made by individuals and would not allow a majority of voters to rule! So much for retronchment and reform. North Carolina manufactures more whisky to-day than any other State. I receive letters from Ohio, New York and Virginia wanting my experience in my business.

M.

HAD HIS ARM BROKEN.

Lincolnton Progress.

Mr. Willian R. McLean, of South Point, Gaston county, met with a serious accident on the 2d inst. Mr. and Mrs. McLean had started to Charlotte and accidently drove into a yellow jackets' nest, and the mule attached to the buggy ran away and threw them both out, breaking Mr. McLean's right arm near the shoulder and otherwise injuring himself. Mrs. McLean was also painfully, but not seriously injured. Mr. McLean is doing as well as could be expected for one of his age, and it is hoped that he will soon recover.

JACK AND THE BEANSTALK.

Franklin Reporter.

L. M. Johnston, of Cartoogachaye township, in this county, planted a piece of rich bottom last spring in a new kind of corn. It has beat him badly. He cannot pull the fodder to the ear. The stalks are over sixteen feet high, six inches in circumference, ten feet to the ear, and well eared. The fodder is five feet in length and six inches broad.

THE PRIZE BALE.

Charlotte Observer, 11th.

M. Gregory, buying cotton for Mr. H. Watts in Statesville, yesterday brought down a sample of a bale of cotton raised and ginned by Messrs. Melker & Co., in Iredell, which is intended to be sent to the State fair, and further, to take the prize. The bale weighs five hundred pounds, has been neatly packed, surrounded by gilt bands, and the cotton men who saw the sample yesterday pronounced it the very best. It will be a feather in Iredell's cap to go into a cotton country and take off the prize.

A MOUNTAIN IN TRAVAIL.

Franklin Reporter.

A few days ago Mr. N. W. Jones, mail rider from this place to Shooting Creek in Clay county, called on us and made the following statement: Two weeks ago last Friday, while on my route, I was descending Chunky Gal Mountain, and when near the base I heard a very loud rumbling noise. At first I thought it was thunder, but noticed that the sky was perfectly clear, and gave the noise no further thought for that day. The next day I was accompanied by a young man, and as we were ascending the same mountain, we found our path blockaded by a very large rock aqout eighteen feet square. We gave the rock a partial examination and found it to be wet, as if it had been in the ground. Then we noticed the ground torn up in the direction of the summit, and concluded to see further into the matter, and traveled over a half mile in its track. It had made great holes in the earth, large enough to build houses in. Trees and everything else were shivered, broken, torn up by the roots and thrown out of its way. We did not have the time to examine further, but think it must have traveled at least two miles. The people in that section were terribly frightened, one old lady being so badly shocked that her recovery is very doubtful. This is what Mr. Jones related to us. He seemed a little excited, and promises to report all further researches. He firmly believes that the rock was shot out of the mountain side.

LATE STATE NOTES.

Asheville Citizen.

Two sons of Captain A. B. Thrash, of Hominy, aged respectively ten and twelve years, made this year fifty-five gallons of good sorghum from twenty-seven poles of land, or at the rate of three hundred and twenty gallons to the acre. This was done by their individual labor. What boys can beat this?

Great many of the wells in this place have gone dry during the past two or three months. It has been found generally necessary to dig them deeper in order to obtain water. If this state of affairs continues, we will unquestionably be "short on water."

A good road is to be constructed to the top of Craggy Mountain next spring, for the benefit of summer travel and tourists. The scenery on Craggy is said to equal, if not surpass, that of Black Mountain, and this improvement will doubtless draw many visitors to its wilds and beauties.

Two of our citizens were out hunting on Monday and bagged twenty-four squirrels and killed a rattlesnake having ten rattles and a button. The squirrels they brought home, but his snakeship was left on the sanguinary field of battle.

The severe drought which has prevailed for some weeks past, following upon the long drought lasting during the summer months, has caused the streams in this section to be quite low. The Swannanoa is lower than has been known for many years, and if the drought continues much longer, the fish in that stream will be hunting the spring branches to get a drink.

Danburv Reporter.

Burl East, residing near Brown Mountain, had a barn of tobacco burned on Monday, losing near seven hundred pounds of the golden leaf.

William Fagg residing some miles to the north-west of this place, had a fine barn of tobacco consumed by fire one day last week.

Some reckless boys were opossum hunting in the woods near Mr. Samuel Rierson's tobacco barn, situated about one mile north-east of this place, on last Thursday night. They left some fire in an old stump, near the barn caught on Saturday and was devoured by the flames, together with about two-hundred panel of fence. On Sunday Sunday night the fire again broke out and consumed several hundred panels more of the fence.

A colored man living in the north-western portion of this county had a barn of tobacco burned up last week under the following circumstances: He was burning a coal pit some distance from the barn, passing back and forth from his house to the pit, by way of a straw stick situated near the barn; being absent the fire broke out on the side of the pit, caught into the dry grass and was conveyed down the path into the stack and thence to the barn. This is a sore loss, which we deeply regret.

Weldon News.

The carrier pigeon that we mentioned several weeks ago as being brought down here from Trenton, N. J., to let loose for an experiment, made his way safely home in time to go to roost that night with his mate. So we are informed by the parties who had the pigeon in charge.

The negro who was sentenced to the penitentiary at our last court for stealing Dr. Green's watch, told the authorities that he had been there before and would bet a dollar that he would be out again before Christmas. He is the one who pleaded his own case and got an acquittal on another charge. He is said to be a desperate character and unless the penitentiary authorities are very watchful he will win the bet. He escaped once before by killing or knocking down one of the keepers, and has twice broken jail.

Elizabeth City North Carolinian.

The Methodist revival at New-Begun Creek was quite successful. A number of new members have joined the Church.

During the past week we have interviewed a number of our farmers in regard to the yield of cotton, and we find the prevalent opinion to be that the great storm has cut it off at least one-half in this locality.

We are daily asked, "What about the Railroad?" All that we know is, there is a hitch, and work has been suspended. From the president of the Company, who resides in Ohio, we hear nothing, and the contractor's explanations do not give us the satisfactory information we desire. He assures us, however, that the suspension is only temporary.

OPENING THE FAIR.

WILL HAVE A FINE EXHIBITION THIS YEAR.

The Opening Day---Full as Much as Expected---More People in Town than Ever Before.

The Nineteenth Annual Fair of the North Carolina Agricultural Society was opened yesterday. The prospects are encouraging indeed and the exhibition this year is expected to be a grand success.

We have not the space this morning, nor is it very necessary that we should enter into an extended account yet.

To-morrow we will begin a general description, taking up the different departments in their proper order. For the first day yesterday more than favorably compares with the first day of previous years.

A very large display of fruit already; in fact the space allotted to this department of exhibits will not hold them and more provision has been made.

The donations are set off in General Exhibition Hall to great advantage; the display of exhibits in every branch of trade is most admirably made, and one can fully occupy himself in admiring the same. Mr. N. S. Harp, of the Raleigh coach factory, has some specimens of work in the line of buggies, etc., that are indeed fine.

Captain Denson and his *aide-de-camp* are kept busy in the extreme.

The arrival of Mr. R. J. Jeter's four-hundred and ninety-seven pound Berkshire pig caused quite a little sensation and was greatly admired.

The exhibit of stock generally is large and selected. Notice will be made partially of the department hereafter.

THE WALKING MATCH.

will commence Friday at 7 o'clock A.M., continuing till 12 (five hours), and promises to be most interesting.

Briggs was appointed to procure them The procession will form on East Hargett street at 9 a. m., opposite Baptist grove, in the following order. Thompson's Silver Cornet Band in the lead. Snow, Esq., and be responded to by Rev. H. Whitaker, after which the procession will move off the track so as not to interfere with the programme of the society. The procession promise to be a large one, as indeed it ought, as a better way of advertising Raleigh cannot be found. Thousands of visitors comes to the Fair on the excursion trains and return the same day without seeing Raleigh at all. Therefore, turn out one and all.

The sashes will be ready for delivery to-morrow night at Mrs. Ettinger's millinery store. Marshals will call there for them.

The Latest Addition.

The *North Carolina Weekly State Journal*, John Spelman editor and proprietor, will be revived on November 5th. It will be a large, well-printed twenty-eight column paper. As a newspaper, it is the purpose of the editor to make it acceptable and valuable to the general reader, to the family circle, and to the educational, agricultural, commercial and manufacturing interests of the State. Politically, it will be thoroughly Democratic, exact in party discipline, independently impartial between party friends, and candid and frank with friend and foe alike. The *Journal* will be issued at the following rates, invariably in advance: $1.50 per year; $1.25 each for clubs of ten or more; $1.00 each for clubs of twenty or more, postage free. During Fair week subscriptions will be received at Simpson's Drug Store, Fayetteville street.

St. Mary's School.

The News is authorized to announce that a reception will be held at St. Mary's School on Thursday evening of this week. The Principal, Rev. Bennett Smedes, cordially invites all friends of the young ladies who may be visiting the city at that time as well as the numerous friends of the school residing in Raleigh to be present.

The Oratorio of Daniel.

We advise everybody to go to the Salisbury Street Baptist Church, on to-morrow (Wednesday) night and hear the rendition of this beautiful oratorio. The King's command to bring forth the Captive Princes from Judea, and cast them into a furnace of fire; the beautiful Trio of these Princes "trusting in Jehovah's keeping;" the Solo of the Surprised King, as through the lurid flame" he sees *four* men walking in the midst of the fire," when he ordered only *three* to be cast in; the full chorus of the Jews praising God for the deliverance of his people; the beautiful Quartette, "Take a Psalm and bring a Timbrel:" and the Sweet Trio of Hebrew Maidens mourning for their native land "at early dawn and evening shade." Then, the time extending to the reign of another king, will be heard the triumphal chorus of the Persians, as with lound trumpets, they sound the the praises of their "Kingdom so renowned;" the solos of one of the Presidents of the Realm, who is jealous of Daniel, who has been appointed by the King chief President; the beautiful solo of one of the Presidents who is favorable to Daniel; the chorus of Princes and Presidents who conspire to overthrow Daniel, by petitioning to the King to pass a law which Daniel will not obey; the solo of the King issuing the decree that no man shall pray to any God for thirty days; the fine solo of Daniel praying to his God to deliver him; the triumphal chorus of Persian Princes when they discover Daniel praying; the sweet solo of Persia's Queen, as she goes to the King and laments his stern decree; the King's reply: "My soul is filled with deepest gloom;" then the duet of the King and Queen, trusting that Daniel's God will hear his prayer; the solo of the King asking Daniel if his God was able to protect him from the lions; Daniel's reply, that God had shut the lion's mouth; the several full choruses of praise; the solos of Daniel, accompained by chorus from his fellow captives, giving praises for his deliverance; the solo of the King, giving permission to the captive Israelites to return to their native land; the exquisitely beautiful solo of the Persian Queen as she tell Judah's children that they have taught her to revere Jehovah's name, and the grand finale chorus in which the King, Queen, Princes and Jewish captives all join in singing, will be one of the grandest exhibitions of sacred music ever rendered in this city.

The Theaters Last Night.

TUCKER HALL.

The Templeton Troupe played "Miss Muller" at this hall last night. Among the audience was noticed his Excellency, Governor Jarvis, ex U. S. Senator Merrimon, and other distinguished personages. The play was most cleverly conceived and admirably acted throughout. Alice Vane was just splendid, and the many *echos* she and Miss Fay received is sufficient evidence of their popularity. To-night they give another treat—"Maritana; or, The Gipsey," and The King will be rendered. Every one attending will pass a pleasant evening.

METROPOLITAN HALL.

The Adah Richmond Troupe had a good house, and completely infatuated their audience with their acting. Fatinitza was most admirably rendered, and Miss Richmond has already become a favorite.

With two such troupes playing throughout the week, Raleigh does not lack for first-class places of amusement; and everybody is going to the Theater to-night.

Grand Walking Match.

At the Fair Grounds, on Friday, October 17th. The Executive Committee have added to the Premium List a prize of twenty dollars, to be paid to the winning man in a match of four hours, commencing at 9 A. M. and closing at 1 P. M., on the track. The walking is to be go-as-you-please, entry fee one dollar. The names of those who wish to enter must be registered at the office of the Secretary, and there must be five entries. Proper scorers will be appointed, under a competent supervisor.

Diseases of Stock.

The United States Commissioner of Agriculture has lately appointed Dr. Salmon, of this State, to investigate the contagious and infectious diseases of stock in the South, with a view to determine their frequency and extent, their nature and the best means of preventing them. Dr. Salmon may be found during the week in the carriage apartment, under the grand stand on the Fair grounds, where he hopes farmers from every part of the State will call and give him information. He is particularly anxious to hear of any cases where cattle distemper, hog or chicken cholera may be at present affecting the stock. The services are entirely gratuitous to our people and where possible professional advice will also be given, in every case free of charge.

Personal.

Mr. G. E. Matthews, of the Norfolk *Landmark*, is in town.

S. Talbott, of the firm of Talbott & Sons, of Richmond, arrived last evening and will exhibit one of their agricultural engines on the Fair grounds.

Polk Miller, of the firm of Polk Miller & Company, also arrived and will represent the celebrated "Vest Pocket Cure."

J. C. Dame, Southern agent of the Chesapeake & Ohio railroad is also in the city looking after the interest of his road.

The Ohio Election.

Pools on the Ohio election will be sold at Tim Lee's to-night; also to-night, and any other evening during the week, on the races at the Fair Grounds. Some of the best races ever seen at Raleigh will take place this week.

Special Notice.

A special meeting of the executive committee of the North Carolina Agricultural society will be held at the Secretary's office on the Fair grounds to-day at ten o'clock. Members are requested to attend promptly, as business of importance will be transacted.

Every Teacher Attending the Fair

Is invited to visit Messrs. Alfred Williams & Co.'s Book Store, and examine the school books recommended by the State Board of Education for use in all the public schools of the State.

Fire at Kittrell's.

Sunday, Peter Owen's house caught fire. By the aid of his frtends it was extinguished before much damage was done.

Beautifiers.

Ladies, you cannot make fair skin rosy cheeks and sparkling eyes with all the cosmetics of France or beautifiers of the world while in poor health, and nothing will give you such good health, strength, buoyant spirits and beauty as Hop Bitters. A trial is certain proof. See another column.

ON SMALL CAPITAL.

AND THEY STARTED FROM PETERSBURG TO HUNT BUFFALO.

Two Juvenile Virginians who Sought to "Do" New York on a Capital of Twenty-Three Cents.

New York Star, 11th.

Three weeks ago yesterday, Willie Clarke and David Connors of Petersburg, Va., started for this city to shoot buffalo. Willie and David were each fourteen years of age, and their joint capital was a flint-lock musket, a jack-knife and twenty-three cents. Early this week Captain Kealy of the detective force received a dispatch from Petersburg asking him to look out for the boys, and on Wednesday morning he took them into custody. They were unloading barrel staves from a schooner at an East River pier. Yesterday they were visited at headquarters by a reporter for the *Star*. Willie Clarke was led into the Captain's office first. He is a bright, intelligent-looking boy of medium height. He said that he started from Petersburg three weeks ago for the purpose of seeing New York. The boy has the accent so peculiar to Southerners.

"What will your father say when you get back?"

The boy scratched under his rear suspender button and answered, "He'll give me a warmin', you bet."

"How much money did you have when you started from home?"

"Not a red, an' I wish I'd stayed there. Father is a printer in Petersburg and I worked for him. He was very kind to me. It was Dave that gave me the idea of coming to here. We brought the gun along to shoot what we could. I hardly think father'll warm me unless he has to pay my way back, do you, Cap'n?"

The "Cap'n" said he guessed not. In answer to further inquiries Willie said: "We left home on a Thursday morning. We started to walk to Richmond, about (the boy pronounced it 'aboat') twenty-two miles. When we had got three miles from home we met a drover, and he gave us a ride on horseback to Richmond. Then we got on a schooner and worked our passage to this taown. Golly! warn't I seasick? The waves dashed over me, and I wished a hundred times that I war home. This is the third time I've run away; but I reckon I'm cured."

"Do you chew tobacco?"

"Chewed it sence I war three years ole. All the children chew it in Virginia. Dave chews wus nor I do. He's in the other room chewin' now."

Willie was dismissed and "Dave" was ushered in. He was smaller than his companion, and when he entered he had his flint-lock on his shoulder.

"Well, Dave," said the Captain, "how do you feel to-day?"

"Tolabl', Cap'n; how're you?"

"Want to go back home?"

"Yess'r. I thought it all over las' night, an' had a good cry over it."

"What made you leave home?"

"Well, par wus cross ter me, and on the morning we scooted I shouldered my gun and told par I wus goin' out to shoot sora. A sora is 'boat as big as a mockin' bird, you know. 'F I hadn't tole him that he wouldn't er let me out. Par's a harnessmaker, and I guess he'll have some use for straps when I git home."

"Do you think you could make your living with that gun?"

"Reckon not. Reckon I'd git killed 'fore I got a shot."

"Will your father curse at you when you get back?"

"Don't care how much words he says. Reckon he'll do sumthin' harder'n words. Only had twenty-three cents when I started (and the boy chuckled), but aint got as much as that now."

"Dave" appeared to have a mortal dread of home, but said he was tired of city life, while Willie was anxious to get back. When informed by Captain Kealy that they would be sent home today they smiled, scratched themselves, winked at each other, said, "Ouch!" and were led back to their quarters in the prison.

The Fair at Wadesboro.

The first annual Fair of the Dixie Agricultural and Mechanical Association will be held at the Fair grounds on Carr's Mount in Wadesboro, N. C., on Tuesday, Wednesday, Thursday and Friday, November 18th, 19th, 20th and 21st. Over $2,000 in valuable premiums for the farmers and mechanics, the ladies, girls and boys, who have articles on exhibition.

The amusements during each day of the Fair will be varied and highly entertaining—consisting in part of walking matches, base ball playing, trotting and running races, glass ball shooting, etc., etc.

Eminent statesmen and learned farmers will be present and deliver addresses. We invite the people of North and South Carolina, in particular, to meet with us and enjoy our annual gathering; and we shall be pleased to see visitors from all parts of the entire South.

If any Northern brethren shall honor us with their presence, they will meet with a cordial and warm reception.

Any one desiring to see our list of premiums or learn anything concerning the Fair, can do so by addressing John T. Patrick, Secretary, Wadesboro, N. C.

Persons desiring to secure stands for the purpose of selling goods, wares or merchandise, will address the secretary, John T. Patrick, on or before the 15th day of November next.

Swannanoa Gap, as a station to sell tickets, has been discontinued and two new stations created. Black Mountain is the name of one of the stations and Swannanoa the other. The former is one hundred and twenty-nine miles from Salisbury, and the latter is one hundred and thirty-two miles from Salisbury.

Bogus Certificates.

It is no vile drugged stuff, pretending to be made of wonderful foreign roots, barks, &c., and puffed up by long bogus certificates of pretended miraculous cures, but a simple, pure, effective medicine, made of well known valuable remedies, that furnishes its own certificates by its cures. We refer to Hop Bitters, the purest and best of medicines.—*Exchange.* See another column.

Another victim of Kerosene. Last night while Miss Jenny Robinson, of this city, was trying to light the fire with kerosene, the usual consequences followed. A prompt application of Henry's Carbolic Salve relieved the pain, and her recovery is now assured. Beware of counterfeits.

What do you think?

"Mrs. Jones, my old man is going to the Fair, and I've made him promise to buy me one of those elegant Cook Stoves from Brewster. Mrs. Brown has one, and its just delightful. I'm going to send for some cake pans, too; Brewster has some elegant ones, and just as cheap as can be. You ought to see those sweet little puff pans Mrs. Smith got from Brewster; they are just lovely!"

DAILY NEWS

TUESDAY, OCTOBER 14, 1879.

GEO. C. JORDAN, Editor and Prop'r.

THE Savannah *News* of Thursday contained a plan of the siege of that town in 1779, by the British, and a full account of the operations. It was in eight page form, and showed enterprise that is very commendable.

ENGLISH papers are rejoicing over tobacco experiments made in India, where it is said as good tobacco can be raised as in Virginia. A Virginia planter was imported by Lord Lytton's government, along with the tobacco plant, and set to superintend the cultivation. Eight hundred acres on the Ganges were given up to him, and the result is that he has produced a leaf which he regarded as superior to the same in his own State, and he has sold his stock at the rate of £700 or £800 per acre.

AND this is what Governor Lucius Robinson, of New York, says. It is well for all officials to heed it:

The functions which we exercise are committed to us as a sacred trust. The Government which we control as public officers is not our own, it belongs to those who placed us here. The laws we enact do not express our will, they are the voice of the people. The money which we handle belongs to them and not to us. We can only take it from them for the legitimate expenses of Government. More than this is robbery. Official generosity is official crime. Every needless tax cuts some comfort from a thousand homes. It means less food, less fuel, and less cheer in many families.

THE question as to whether or no negroes sneeze has been satisfactorily answered; at least, we think so, for the subjoined physiological refutation appears in the New York *Sun* in reply to a reporter's interrogatories:

"Oh, I understand; you, like the gentleman who some time ago came to me with the conundrum, 'Are flies scavengers?' are in pursuit of information. Well, sir, as you, of course, know, sneezing is one of the commonest examples of reflex action. The sternutant, coming in contact with the delicate schneiderian membrane lining the infundibulum and meatus nasi, acts as an irritant to the branches of the fifth pair, which impression being conveyed to the medulla excites the expulsive pulmonary muscles, and causes the act of sternutation. Having examined a great number of nasorum Africani during my histological researches, I find the situation of the naso-palatine, the nasal filaments of the ophthalmic, and the numerous branches of meckels ganglion, to be identical in the two races; so that, *a priori*, that which causes sternutation in the one case must cause it in the other."

WHEN one of these newspaper men does get on a thirst for news there is no telling to what length it may carry him. Here is the Winnsboro *News and Herald*, for instance, not satisfied with being put in possession of all the available information in reference to Mrs. Prestidge, demands of the associated press agent at Memphis more tidings of the health of the wife of Chief-of-Police Athey. There are some people who can never be satisfied at all.—*Charlotte Observer.*

Why should they be in this instance? Day after day the wires flashed the condition of Ed. Moon. When the noon dispatches came the news that was looked for was the condition of Ed. Moon. When the night dispatches came our citizens four deep were ranged along Fayetteville street from the Capitol to the Governor's Mansion, and one heavy sob went up—"How's Ed. Moon?" and our devil mounted a dry goods box and by the brilliant glare of a naphtha lamp read the dispatch stating that he was alive, and a sigh of relief went up and out on the night air. But a day came when the familiar name did not appear. Night came and still no news. The crowd that surged to and fro in front of the NEWS office was simply tremendous, and we had to put out transparencies stating that nothing had been heard as to his condition, and then promise news certainly by the next day. But the days sped on. Anxiety was seated on every brow, and hope for his safety was fast evaporating. And then on one glad day the news came that he was well—that he had been cured by eating watermelons. There were about one hundred thousand watermelons in the market that day, and in three hours' time the grade of the streets had been raised ten feet. Our people had found a specific, through Ed. Moon's case, for yellow fever, and they were bound that the scourge should never cross their thresholds if watermelons could prevent it. And in view of this, the *Observer's* want of delicacy in alluding to the gleaners of news and the searchers for truth is simply abominable.

THE STATE FAIR.

The Nineteenth Annual Fair of the State opened yesterday under auspices the most flattering; in fact it was the best Monday of any previous Fair. As the day was, as is usual, devoted to entries, preparing displays and other preliminary work, no accurate and detailed report can now be made; but from to-day until the close the earnest work will commence, that is in a reportorial way, and better things may be expected of us.

Donations continue to crowd in and keep a corps of clerks busy in making preparations for their proper exhibit. All indications point to the most full and complete Agricultural Fair the State Society has yet seen.

DISINTEGRATION OF THE "SOLID SOUTH."

We publish the following as a further warning, with the hope that the Durham *Recorder* will not construe it as in advocacy of "Independentism." It is taken from the Philadelphia *Record:*

Almost every day brings news of scisms in the Democratic party in the south and the organization of independent voters. In Georgia the independents, from all reports, are better organized than the old party and have all the elements of victory with them. In Louisiana, yesterday, at the State convention, the machine won the day and nominated Wiltz as the Democratic candidate for governor. The Ogden wing of the party, which comprises the better element, are very much dissatisfied with the result, and it is more than probable that they will oppose the "ring" ticket. In Texas the Democratic party has been too strong for its own good. Its majorities have run up to a hundred thousand, and now the organization is threatened with destruction by reason of its very strength. Independent candidates are out for office all over the State, and when remonstrated with by the party organs their reply is that the party vote can be divided without any danger of defeat at the hands of Republicans. These divisions, however, engender bitter feeling between the two factions, and the breach grows wider. In Mississippi the independents and greenbackers are united and are making a determined fight for the legislature and for local offices.

All these signs show that the solidity of the South politically is being broken up, and in two or three years more it will, no doubt, have become a thing of the past. Politicians and party leaders will be able to hold the South together through the Presidential contest next year. Every argument now addressed to the voters of that section is to that end. The voters are told that if they stand firm in one more fight they can win, and enter into the enjoyment of rich Federal patronage. This will, in all probability, hold then, but after next year no matter which way the Presidential election may go, the men of the South will divide upon political questions. Should they lose the Presidential race they will conclude that it is useless to fight the battles of Democracy any longer. Should they win, the number of officers for distribution will fall far short of meeting the demand from that section, and those who are left out may be counted upon afterward as opponents of Democracy.

POLITICAL NOTES.

Honesty is the best Indian policy, according to the New Haven *Register*, but how can it dare make such an open assertion before a trial of that policy has been made?

If the friends of free government can be united upon Tilden, we can beat Grant. If they cannot be, good-by to old-fashioned liberty, and all hail to splendid government.—*Courier-Journal.*

Is it not droll that Mr. Hayes and his party should be so solicitous to put the ballot-boxes of New York at the mercy of the Tammany experts, who during the recent extra session were held up to public obloquy as the main reason for keeping the Davenport law on the statute book?—*New Yrok World.*

At Republican mass-meetings in New York city portraits of Grant and Cornell flank the platform. This would give point to the promised speeches of Evarts, Blaine and Sherman.

Silas B. Dutcher, the New York appraiser, has been granted leave of absence while he takes the stump for Cornell. It would be interesting to know whether this absence comes out of his regular yearly leave, and if not whether Dutcher's pay is docked for his absence.

John Sherman has been moved to write a letter, in answer to a floating rumor, in which he says "General Grant never had a truer friend than I am." Well, what is the point?

Any expectation that victory will be easy this year, because of Democratic dissensions, may be at once dismissed. About the only result that can be predicted with certainty of the Kelly-Robinson fight is that it will bring out a very large Democratic vote, and on all names, except the first on the State ticket, the vote will be solid.—*New York Times.*

Fireman Championship.

Charlotte Observer.

Notice is hereby given to the fire companies of North Carolina that the challenge heretofore extended to them by the Pioneer Steam Fire Engine Company, No. 2, of Charlotte, to a trial of skill in this city during the approaching fair, will expire on the 20th inst. If not accepted between this time and that, this notice will be a bar to a subsequent acceptance, and this company will consider itself entitled to the championship belt of the State, and will retain possession of it for one year unless defeated in a later contest for it.

VEGETINE.

Behold Me a Well Woman.

CANCER.

MONTGOMERY, ALA., June 26, 1878.

H. R. STEVENS, BOSTON.

DEAR SIR:—I have for years been a sufferer from a dreadful CANCER in my side which caused me untold agony, and as I am a widow with a family dependent upon my exertions for a support, my pain of body was only equalled by my pain of mind, at seeing my children want for bread. I was presented by a kind friend in Cincinnati with half a dozen bottles of Vegetine, and although one bottle is still untouched, behold me a well woman, completely restored in body and mind, and able to perform my accustomed duties. Long may you live! and may the history of my wonderful cure lead other like sufferers to purchase your valuable medicine, if it is with the last cent they possess.

Yours gratefully,
MRS. FULLER SUTT.

I write this to certify that I have known Mrs. Fuller Sutt from childhood, and have seen the hours of agony, that her patient womanhood has been called upon to endure. She has suffered untold agonies and now sits beside me in perfect health with her child upon her knee. The prayers of this grateful woman will ever be yours, my noble sir, and we add our testimony to the thousands that favor the greatest of all modern discoveries, "Vegetine."

Yours respectfully,
MRS. CHELLET SUMMER.

Piles, Rheumatism.

GOODMAN, MISS., May 6, 1878.

H. R. STEVENS, BOSTON:

I have been suffering for 25 years with the Piles and found but little relief from any medicine that I have taken for many years past. Last winter I suffered considerably worse than ever before, also in connection with Rheumatism I was confined to my bed for several weeks. Having procured a bottle of Vegetine I took it with good effect. I continued the use, and after taking four or five bottles, find myself comparatively cured. I can cheerfully recommend it for the benefits that I have received from it.

Yours respectfully,
J. W. TAGGART.

I take great pleasure in recommending your Vegetine. I have been suffering for a long time with the Lung Disease; trying every kind of medicine that I could get, but none seemed to do me any good, until I tried your great Vegetine remedy. I had used it only a short time before I could discover a very great change in my health for the better. I don't consider that your medicine has its equal, for the diseases which you propose to cure, especially the disease that I have been afflicted with

GOSSIP FOR THE LADIES.

Circe.

The glowing in her eyes! Oh, that glowing!
This it was that held him strong and fast;
Held him while all holy visions passed;
And the peace-lands which they promised, growing
Far and fainter, swept from sight at last.

Why, she conquered him with just her smiling!
With her rare eyes and their weird, sweet lure;
With her breast—snow; fire!—Ah, word, reviling,
Tell us which high soul is all secure?

Aye, that glowing in her eyes! What his praying?
Not on field is fought the direst fight!
What, when heart and soul and all life's might
Meet the Circe-god—a woman straying—
And that woman all-incarnate Light?

An Albany man advertises for "a girl to work in hair." He is evidently a bachelor.

A Cleveland man who has had several wives says a bald-headed eagle is one that has been married.—*Cleveland Voice.*

A Cincinnati woman knocked down her husband with a brick, and when the policeman came running up she was looking around for the brick to kiss it.

Maggie Clawson, a young woman of Indiana county, jumped into a well and drowned herself because she wasn't permitted to go to the fair.

A proper conclusion for the marriage ceremony in many of our society weddings would be: "What commercial interests have joined together, let no illtemper put asunder."

The widows of Brigham Young do not bedew his grave with tears, and the New Haven *Register* thinks it is fortunate, as 'if they should, and all at once, it would wash the whole business away."

"I am afraid," said a lady to her husband, "that I am going to have a stiff neck." "Not at all improbable, my dear," replied her spouse, "I have seen strong symptoms of it ever since we were married."

Apropos of the divorce question, which has excited so much discussion in Paris, the Paris *Globe* declares that children no longer "play marriage," as they were heretofore wont to do; now they "play divorce."

A gentleman learned in the origin of social customs was asked the meaning of casting an old shoe after a newly married couple as they start on their trip. He said: "To indicate that the chances of matrimony are very slippery."

At a party at Saratoga the other day, the conversation appeared to be dying out, when a bilious man observed to a young lady on his right: "I don't think they make pills as large as they used to." After that the conversation went out again.

The relationship of man and woman in rainy weather, according to the Albany *Journal*, is easily discovered. If they are lovers the woman will have all the umbrella, and the man won't care a fig how wet he gets. But if they are married, it is just the opposite.

A great many of our modern young ladies resemble the lilies of the field: they toil not, neither do they spin! But they spend a pile of money, and lay around the house and let their mothers do the work. That's the kind of holly-hocks they are!

GENTLER BEINGS.

Take her up tenderly,
Fashioned so slenderly,
Young and so fair;
Handle her carefully,
Talk to her playfully—
She's cross as a bear!

Cuticura

THE GREAT SKIN CURE,

The most Healing, Soothing and Refreshing External Application in the World.

It rapidly heals Ulcers, Old Sores, and Discharging Wounds; Itching Piles and other Itching affections that have been the torture of a lifetime, thus affording unspeakable gratification to thousands; Burns, Scalds, Wounds and Festers; all Itching and Scaly Eruptions of the Skin, and all Affections of the scalp, including Loss of Hair. Nothing like it has ever been known to the most intelligent physicians. It has swept a host of poisonous remedies out of existence. It is revolutionary in its composition and made of treasures and succeeds in curing every external affection. At every stage it is ably assisted by CUTICURA SOAP, which is a part of itself medicinally and at the same time the most delightfully fragrant and refreshing Toilet, Bath, and Nursery Soap in existence.

CUTICURA RESOLVENT, a powerful purifying agent and liver stimulant, should be taken to neutralize and resolve away blood poisons, caused by the virus of scrofula, cancer, canker, malarial or contagious diseases, which maintain and foster diseases, which maintain and foster diseases of the skin and scalp.

SALT RHEUM.

Life a burden from the sufferings caused by this terrible disease.

MESSRS. WEEKS & POTTER—Gentlemen: Please accept my most grateful thanks for the great, very great, comfort I have received from the use of your CUTICURA.

For the past eight or nine years I have been troubled with that dreadful disease, Salt Rheum,

For months I would be helpless,—my very life a burden to me.

I have used everything in the shape of medicine, both external and internal, but with no effect.

My hands were in a terrible condition, the backs of them being all raw, and I thought I would try CUTICURA.

I tried it, and to it was as if a miracle had been performed, for I will take my oath that in three applications my hands were as smooth as a new-born babe's.

I presume there are hundreds, if not thousands, who know of my case, among whom there may be some one similarly afflicted, and if so I would earnestly advise him to give CUTICURA a trial.

Yours, very thankfully,
A. D. BAKER, Ticket Agent C. S. R. R.
DETROIT JUNCTION, DETROIT, MICH.,

Tetter or Salt Rheum

On the hands cured. A greatful letter.

MESSRS. WEEKS & POTTER—Gentlemen:—Having been troubled for many years with the Tetter or Salt Rheum, I spent many a hard-earned dollar. I was given a trial of your UTICURA, and, thank God, my hands are well. I never had anything do me good like that.

You may put this in the paper and welcome, and may it do some other poor sufferer the same good it has done me! I am well known here, having lived here almost fifteen years and kept boarders for a living, and sometimes my heart was sore, thinking I would have to give up altogether with my sore hands, and having a small family to take care of; but oh! thank God, my hands are well, so I again return thanks.

Yours respectfully,
ELIZABETH BUKLEY.
LITTLETON, N. H., May 30, 1878.

The CUTICURA REMEDIES are prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and are for sale by all Druggists. Price of Cuticura, small boxes, 50 cents; large boxes $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

—The Fair will be a great success

—See first page for report of the Fair.

—The most sensible and valuable change made in the location of stalls is pleasing.

—Several drunk and disorderly cases were disposed of by the Mayor yesterday.

—Go to the theaters to-night. Both are good companies and you will enjoy yourself if you attend.

—The 9:15 train in going out to the Fair Grounds yesterday scared a horse to death—no he run—no serious damage.

—The Fair will be formally opened to-day at ten o'clock. His Excellency Governor Jarvis will deliver the address.

—Ordinarily the NEWS cares very little to publish complimentary "puffs" for "shows," but it will recommend the Adah Richmond troupe.

—John Mitchell was released from durance vile yesterday, having given the required bond for his appearance at the next term of the Superior Court.

—Mrs. Creech, wife of our excellent townsman, A. Creech, Esq., was thrown from a buggy in consequence of the horses becoming frightened yesterday, and herself and a young daughter were considerably frightened. It is a pleasure to state that neither were seriously hurt.

—Attention is called to the advertisement of Messrs. J. and E. Mahoney, Portsmouth, Va., wholesale dealers in liquor, tobacco, snuff and cigars. They are the manufacturers of the celebrated Lake Drummond, copper-distilled pure rye whiskies—the purity of which is attested by Dr. Taylor, State Chemist of Virginia. This house is one of the oldest and best in the South, and worthy the patronage of our readers.

Talking about the liver, we presume that ill temper is more often caused by a disordered liver than anything else. To insure a cheerful disposition take Rosadalis, the great Southern Remedy, which will remove the prime cause, and restore the mind to its natural equilibrium. *

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Cough, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, ane is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

VEST POCKET CURE
25 DYSPEPSIA 25
CLERGY & DOCTORS TESTE.

Rev. Dr. Mangum, Prof. Univ. of N. C.
I concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.)
It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va.
Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics, Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D.,
Col. Va.
It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward, P. E., Na. Conf.
About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va.
I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

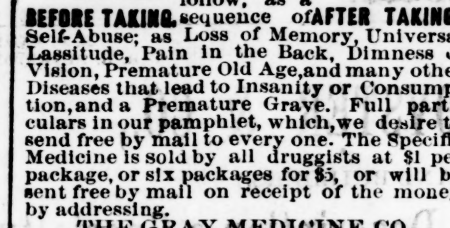

J. D. Eggleston, M. D., Va.
It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion. I use it and recommend it.

Editor Richmond Christian Advocate.
This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.
